ALL NATURAL SAFE ALTERNATIVE TO THE SUN

SPRAY TANNING WAIVER

Name : _____ Address : _____

Phone : _____ Email : _____

You have agreed to participate in one or more airbrush tanning sessions to achieve a sunless tan on your skin. For best results, please read and indicate that you understand and agree with the following information:

1. An airbrush tan, like any self-tanning product, will not protect your skin from burning in the natural sun or in a UV tanning bed. Please take the proper precautions when exposed to UV light.
2. For best results, wait 8 to 12 hours after being airbrushed before showering. This will allow your airbrush tan to fully develop and will ensure the optimal results. You will see some bronzer in your shower water.
3. The initial bronzers in the airbrush tanning solution may transfer to clothing or fabrics. The bronzers are water soluble; they will wash out of most fabrics. Silk, lycra, spandex, nylon, wool or leather can stain.
4. The airbrush technician is trained to provide a smooth even tan. However, due to normal skin variations, and session variables, it is possible you may occasionally find some areas of your tan slightly lighter than others. In most cases, these differences are minor and disappear after a shower.
5. Because of the moisturizing agents in the mist, your eyes may feel itchy or scratchy. The ingredients in the solution are harmless, and will not damage your eyes. You will be instructed to close your eyes during the tanning application.
6. All the components of the airbrush tanning solution have been safely used in cosmetics and nutritional products for decades and have been proven to be safe for the skin. If you have had adverse effects utilizing self-tanning products or moisturizers in the past, you may experience similar effects with the airbrush system. Please discuss this with your technician before proceeding.
7. We recommend that you hold your breath, during facial spraying. We make this recommendation, because most individuals would prefer not to breathe the mist. The solution is not considered harmful, in the minimal amounts that may be inhaled in a normal spray tanning session.
8. Many customers wear disposable shower caps to prevent the solution from settling into hair. Others tan without covering their hair. The solution normally won't penetrate the hair shaft and hair is generally unaffected. Though rare, some porous, coarse, or processed hair types, if uncovered, can be affected.
9. If you have any history of asthma or other respiratory or medical conditions that could be aggravated by the use of the Airbrush system, please consult a physician before proceeding. Please apprise your tanning technician of any past allergic reactions to DHA products, or other medical concerns.
10. Paradise Spray Tan will not be held liable for any bronzer that adheres to any clothing including but not limited to wedding gowns, bridal attendant gowns, bridal party gowns, prom gowns, special clothing, etc.

All minors (less than 18 years of age) must have a parent or legal guardian present and give written consent to have an airbrush session. I, _____ give my consent for _____
_____ to receive an airbrush session from Paradise Spray Tanning.

I, the undersigned, understand and agree to comply with all instructions. I have been properly instructed prior to my Airbrush Session. I am using these services at my own risk. I hereby authorize Paradise Spray Tanning to perform such tanning procedures as may be deemed necessary or advisable, and have provided them with the above information required. I acknowledge that the results of airbrush tanning do vary, and that no guarantees of specific results are offered or implied. I hereby relieve this establishment, as well as the airbrush technician, and hold them harmless, from any liability involved in the use of the tanning process. Paradise Spray Tanning is not liable for any injury to person or property or the loss or theft of any personal property.
